James Ingram possesses a valuable and interesting publication, being no less than a copy of the first number of "The Aberdeen Journal," published December 29, 1747. It is a four page sheet, three columns to the page. The paper contains much about military matters and the war that was then drawing to a close. James Chalmers was the printer and publisher, and he announces that in the second number he will begin publishing an "exact list of the ships that come into or sail from the harbours of Stonehaven, Aberdeen, Peterhead, Fraserburgh, Banff, and Portsey."
